PROFESSIONAL SUMMARY

Mobile and Full-Stack Software Engineer with hands-on experience delivering a production mobile application published on both the Apple App Store and Google Play. As co-founder and Head of Programming at MyCatering, I led the full mobile development lifecycle — architecture, cross-platform UI, REST API integration, cloud databases, and release management. Strong in building responsive, scalable, maintainable production systems, with solid command of JavaScript, TypeScript fundamentals, and REST-driven mobile architectures. Fluent Arabic speaker experienced in RTL interfaces, eager to bring cross-platform mobile expertise into React Native.
